

The 2025 Salinas Biological Summit

ACCELERATING GROWER
ADOPTION OF BIOLOGICAL
SOLUTIONS

JUNE 24 – 25, 2025
WOODLAND, CALIFORNIA

Sponsorship Prospectus

www.salinas-summit.com

Dear Valued Sponsor,

On behalf of the organizing committee, we have great pleasure in asking you to support the 2025 Salinas Biological Summit.

Following two successful years hosting the inaugural Salinas Biological Summits at CSUMB Salinas City Center, in 2025 we are taking to the road! The 2025 Salinas Biological Summit will be hosted at the Yolo County Fairgrounds in Woodland, California.

This prospectus outlines the Sponsorship and Exhibition opportunities available at the Summit. Please take some time to review the packages to determine the best fit for your promotion requirements, and contact us if you need further clarification.

Get ahead of your industry partners and start planning now!

We look forward to sharing this unique event and welcoming you as a valued Sponsor and Exhibitor to Woodland in 2025.

“This is an incredibly important and timely Summit that focuses on an area that needs much more attention, planning and coordination of next Gen tools so we can ensure continued bountiful production of horticultural crops so critical to health and nutrition ”

Karen Ross, California Food and Agriculture
Department Secretary

About Platform10

Platform10 is an international, multi-year collaboration that will accelerate promising biopesticide companies, rigorously assess products, enhance grower confidence, and facilitate market development and adoption. Platform10 emerged as a key outcome from the 2023 Salinas Biological Summit. Platform10's Global Partner Network was launched in June at the 2024 Salinas Biological Summit. Platform10 is being developed by Western Growers and New Zealand-based AgriFoodTech consultancy, Wharf42.

Growers are up against mounting pest and disease challenges due to climate change, reduced efficacy, and diminishing availability of traditional pest control tools. The specialty crop industry in particular requires new crop input technologies due to governmental regulations and consumer demands. Bio-based and novel pest control options to address existing and anticipated gaps in pest management are sorely needed to ensure that our growers are properly equipped with the tools to address these challenges.

This new model to assess and accelerate biopesticide and bio-based pest control tools is intended to improve grower confidence and understanding for how to use biological products. Rigorous standards of efficacy including knockdown, crop damage, and increased yield/quality potential will be assessed. Additionally, effects on non-target organisms and soil health, replacement potential for traditional chemical pesticides, and appropriate application rate/use pattern will be considered. This program will work with product companies to design protocols, developed to assess how the product works when incorporated into a more integrated, ecologically based farming system.

About the Summit

Following the two sold-out Salinas Biological Summits in 2023 & 2024, the need to place growers at the center of the accelerating global discussion around the application of biological inputs remains critical. Once again, the 2025 Salinas Biological Summit Program will reflect that need.

The Salinas Summit is unique. With the backing of Western Growers, whose members produce over 50% of all North America's specialty crops, delegates learn directly about the challenges and opportunities from those most impacted by them. The 2025 Summit will feature keynote speakers, panel discussions and targeted breakouts. A number of international delegations will once again be attending the Summit, sharing their experiences for delivering best practice.

With the post-2023 Summit launch of Platform10 and the 2024 launch of the Platform10 Global Partner Network, delegates will also hear from the biopesticide companies and growers engaged in its field trial program. Addressing mounting pest and disease challenges due to climate change, reduced efficacy, and diminishing availability of traditional pest control tools will be a highlight of the 2025 Summit Program.

The Yolo County Fairgrounds venue also provides Sponsors and Exhibitors with new opportunities to promote their products and services. With a unique Startup event focused entirely on emerging companies in the biocontrol sector, as well as the introduction of real-time demonstrations of biological solutions being applied 'in the field', the 2025 Summit is adding significant additional value to those attending the event.

As regulators and global consumers continue to call for 'less chemicals. more biologicals', the 2025 Salinas Biological Summit will once again bring together growers, consultants, entrepreneurs, investors and policymakers to provide a detailed overview of the current landscape for biological research, development and deployment.

With its unique grower focus, it is one event that you should not miss.

The Program

The Summit Program has been designed to be more than a two-day talkfest. It’s a major opportunity for interested or invested stakeholders to meet, engage and network to support increased research and investment into biological tools that will assist growers improve soil and plant health. The Summit program will include the following themes:

- application of biological tools for soil and plants
- the emerging global regulatory environment and its impact on local growers
- thoughts from major corporate and industry leaders
- the future of research and investment opportunities
- showcasing the Platform10 field trial program

The 2025 Salinas Biological Summit Program has been designed to connect key local and international stakeholders to fully address the impact of biological tools on our soil and plants. It’s a unique opportunity for growers to be at the center of this conversation. It’s an opportunity that should not be missed.

“Growers from California, the nation and the world will all benefit from the 2025 Salinas Biological Summit. New ways of controlling plant pests and diseases with new tools will help maintain healthy crops while increasing on-farm sustainability.”

Don Cameron, President, Terra Nova Ranches

About the hosts

Western Growers and New Zealand-based global AgriFoodTech consultancy, Wharf42, are delighted to co-host the 2025 Salinas Biological Summit.

Since 1926, the Western Growers Family of Companies has been dedicated to helping the agricultural industry grow. From its humble beginnings, Western Growers has been built on the foundational beliefs of strength and commitment. Western Growers members depend on us to help keep them competitive and profitable as we help ensure they continue to thrive in an increasingly complex and challenging global marketplace.

New Zealand-based AgriFoodTech consultancy Wharf42 brings a global lens to identifying emerging solutions that assist farmers and growers address the key challenges they face. As convenors of the 2023 & 2024 Salinas Biological Summits and co-founders of the Platform10 initiative, Wharf42 will once again support international delegations attend the 2025 Salinas Biological Summit, to showcase the research and commercial delivery of biological solutions being undertaken around the world.

About the delegates

The 2025 Salinas Biological Summit provides the platform for a wide cross-section of stakeholders to meet, network and collaborate on emerging biological technologies.

These key stakeholder groups include

- Growers
- R&D Specialists
- Agribusiness Leaders
- Start-up Entrepreneurs
- Software Developers and Systems Integrators
- Investors
- Government Representatives
- Policy Makers
- Environmental Experts
- Compliance Officers

Social Program

To complement the program there will be social activities taking place during the Summit, providing sponsors and exhibitors with ample opportunities to mingle and network with delegates in a relaxed atmosphere.

The following social events are outlined for the Summit:

Monday, June 23	VIP Reception (Invitation Only)
Tuesday, June 24	Summit Evening Reception
Wednesday, June 25	Networking Opportunities
	Multiple breakouts throughout the Summit Program

The Yolo County Fairgrounds

Designed with flexibility in mind, the Yolo County Fairgrounds, home to Waite Hall and other venue facilities, offer a vibrant selection of meeting rooms, exhibition spaces and networking places.

Located just a few miles from the UC Davis campus, close to California’s capital, Sacramento, and on the doorstep of Central Valley, the Yolo County Fairgrounds provide a unique opportunity to build on and enhance the Summit Program to deliver more opportunity to everyone attending the event; partners, exhibitors and delegates.

The main plenary venue, Waite Hall, provides double the seating capacity of the CSUMB Salinas City Center, ensuring

that we can host the significant increase in delegates expected in 2025. This builds on the success of the two inaugural Salinas Biological Summits and the expanded global footprint provided by Platform10.

With networking playing such a key role in the 2025 Program, Yolo County Fairgrounds provide the flexibility to enable us to develop new and exciting opportunities for Sponsors and Exhibitors to engage.

Notable Keynote Speakers

This year's 2024 Salinas Biological Summit speaker line-up was filled with a powerhouse of expertise. We've already begun to line-up a number of prominent speakers, which is continuing to grow, for the 2025 Summit in Woodland.

Check out some of those who raised the bar at this year's Summit.

Karen Ross
Secretary, California Department of Food & Agriculture

Christine Birdsong

Terry Stone
Global Biologicals Regulatory Policy Leader, Corteva Agriscience

Dave Puglia
CEO, Western Growers

Stuart Woolf
President and CEO of Woolf Farming & Processing: Chair, Western Growers

Bill Buckner
CEO & Director Harpe Bio Herbicide

Why your presence is essential at the 2025 Salinas Biological Summit

We understand how important it is for all of our sponsors and exhibitors to feel that your investment is wisely placed.

The Benefits of Participating as a Sponsor

- Maximum exposure at the premier Grower-focused Summit devoted to the ag biologicals sector
- The opportunity for you to interact with the most influential figures in the fields of biological research and application
- The opportunity to participate in the excellent social program allowing you to network with colleagues, renew old friendships and foster new relationships
- High visibility on the Summit website and throughout official marketing material
- The opportunity to deliver a clear message that you have a genuine commitment to Growers and the agrifood technology industry
- Build new relationships and strengthen existing ones
- Acquire highly qualified leads and increase brand awareness
- Meet the decision makers and gain instant market feedback

To summarize, the benefits of your investment are exceptional exposure, creative networking spaces and opportunities, direct connections, new relationships, displayed commitment and excellent business transactions. The Summit and Exhibitor organizers are keen to assist you leverage your investment. Please contact them directly with any specific requests you might have to deliver a unique proposition.

Why Exhibit at the 2025 Salinas Biological Summit?

1. You can showcase your full product range in real life rather than a catalog – live events provide an optimized interactive marketing platform
2. You can develop a personal and direct relationship with your customers
3. You will receive immediate feedback on your product range and purchasers can gain a full appreciation of your product or service
4. You will raise your profile in the biological and agrifood technology field and add value to your brands
5. You can extend the scope of your promotions through the international delegations attending the Summit
6. You could launch a new product and thereby generate media interest
